MEASURING TIPS

Always measure as close to the body as you can. Your dancer should be in a bodysuit or other close fitting dancewear.

Never use the girth measurement alone to size your dancer.

You will always get a superior fit if you take all measurements into account. If your dancer needs few extra inches in the girth or leg length - no problem, just ask us. We are happy to help!

BUST

Measure the fullest part of the chest.

WAIST

Measure the smallest part of the mid section.

HIP

Measure around the fullest part of the hip line.

GIRTH

Secure tape measure at the shoulder, take the tape down the body, through the legs and back up to the same shoulder point at the back. Once your tape has met the start point, press tape into the small of the back — a sway back can add several inches to the girth measurement.

OUTSEAM

Measure from waistline to floor, without shoes.

Still not comfortable measuring?

We do offer sizing kits. Each kits contains one bodysuit in each of our 20 sizes. Please give us a call if you would like more information.
